

Disciples are Not Advanced Children (or, God Doesn't Need My Help)

1. Read John 6:24-71 (yes, it's a long chapter!). What did Jesus say that caused **thousands** of disciples to abandon him? (Hint: What was the significance of Moses to the Jewish people? Another hint: It wasn't just that he led them out of Egypt. Third hint: Think of how Moses is usually brought up throughout the New Testament.)
2. How would a person know whether he or she is a disciple of Jesus, like Peter before the resurrection, or a child of God, like Peter after receiving the Holy Spirit?
3. Take a look at the book of 1st John. How many "tests" can you find that John offers as ways to examine whether one is born again?
4. What do you think is the biggest difference in the **attitude** of a person who is still a disciple and not yet a child of God, versus someone who has been born again into God's family?
